## TOYS 3 – THE VOYAGE AT THE MCCORD MUSEUM: A DELIGHTFUL ADVENTURE TO TOYLAND!

**Montreal, November 7, 2012** – For a third consecutive year and just in time for the Holiday Season, the McCord Museum presents its enormously popular exhibition *Toys 3 – The Voyage* from **November 17, 2012, to April 28, 2013**. This family-oriented exhibition, designed primarily for children aged 3 to 9, invites visitors to discover almost 200 toys from the McCord collection while taking part in a one-of-a-kind adventure!

### Journey to Abracadabra!

Created in collaboration with *La bande à Paul* creative studio, the exhibition will showcase a brand new concept: a playful and colourful circuit along which children, guided by a faithful canine companion and his friends, can join in a hugely entertaining and surprise-filled expedition.

Because good planning is behind every successful trip, the young adventurers will begin with a map to help them find the objects they'll need to pack for their journey. They'll also have to decide on which mode of transport will carry them to the fabulous land of toys, Abracadabra!

First stop: a zany jungle for novice explorers. They'll then arrive at a clearing, where they can take a well-earned rest around a "campfire" while comfortably seated on marshmallow-shaped chairs. There's no better place to read, listen to stories or participate in other fun activities. Once they continue on their journey and arrive at their destination, our voyagers will join in a rollicking party hosted by the toys themselves, where the party guests will meet some very interesting characters. The circuit is also interspersed with a variety of games: snakes and ladders, giant dominos, and others that test kids' observation skills.

*"As soon as they set out on the circuit, visitors will be plunged into a fantasy world designed to delight a child's vivid imagination. The experience will allow them to discover close to 200 artefacts dating from the mid-19<sup>th</sup> century and 20<sup>th</sup> century,"* explains Suzanne Sauvage, President and Chief Executive Officer of the McCord Museum. *"Many of these items, which have been carefully selected from the McCord Museum collection, are being shown for the first time. All will be presented in settings that juxtapose the past and present, which will help children improve their observation skills within a museum environment."*

Among the collection treasures that will be revealed to visitors are an impressive rocking horse (1910), a Kewpie doll (1915-1925), Snoopy Sniffer, the celebrated little dog on rollers (1938), and Earth Mover, a popular yellow pedal car (1962-1966). Some 12 descriptive labels will also be available to provide visitors with additional information. **Please note that admission is free at all times for children 12 and under.**
